STATE-OF-THE-ART

Centennial Hall, which opened in January 2006, offers students easy access to the campus dining hall as well as a landscaped area for outdoor socializing. The residence hall features suite-style living. Each suite has four single-occupancy bedrooms sharing a common living space and a bathroom. Each bathroom has separate toilet and shower areas, along with double sinks, for accommodation of several students at one time. Bedrooms and common areas are fully furnished.

The extra-long twin beds in each bedroom have a variety of height adjustment options up to loft height.

Residents can take advantage of wireless Internet access, cable TV and individual telephone service in their bedrooms. Wireless Internet access is also available throughout the entire building.

With four stories and accommodations for 300 students, the building has study and meeting rooms on each floor. Each floor is designated either male or female. A well-equipped laundry room and a spacious multipurpose room/smart classroom are located on the lower level.

Keeping student safety in mind, access to the building is through a proximity card system. Doors remain locked at all times until opened by a resident with an access card. Students may only enter the building through a central lobby, and guests must register at the front desk when visiting residents.

WHAT OUR STUDENTS THINK

Centennial is a great place to live. It’s new, it’s a short walk from the heart of campus, and I like having a living room in my suite where I can hang out with my friends.
