

Academic Program Assessment Report

Assessment is a term commonly used to encompass the process of gathering and using evidence to guide improvements.

SACSCOC requires that an institution "identifies expected outcomes, assesses the extent to which it achieves these outcomes, and provides evidence of seeking improvement based on analysis of the results".

Be sure to SAVE your progress as you work!

Program Goal

Goal

Goal 1

Program Goals are broad and overarching statements about the skills, knowledge, and dispositions students are expected to gain by the end of their course of study (big picture). They support the Institution's Mission/Goals.

Program Goal

Students will demonstrate a broad base of mathematical knowledge.

Pillar of Success Supported

High-Demand, Market-Driven Programs

Outcomes

Outcome 1

Outcomes are specific, **measurable** statements that reflect the broader goals.

Academic Programs are required to develop **Student Learning Outcomes**, which describe knowledge, skills, and values that students are expected to gain as a result of their educational experiences.

Academic Programs may also develop **Operational Outcomes**, which describe the level of performance of an operational aspect of a program or office (ex. graduation rates, retention, employment data).

Most goals have at least two outcomes measured.

What type of Outcome would you like to add?

Student Learning Outcome

Enter Outcome

Student performance on the MFT exam will be inline with expectations for an institution with our student base.

Timeframe for this Outcome

April 2023

Performance Target for "Met"

At least 50% of graduating seniors score at or above the national median AND no more than 25% of graduating seniors score below the first quartile.

Performance Target for "Partially Met"

Between 30% and 50% of graduating seniors score at or above the national median

Performance Target for "Not Met"

Less than 30% of graduating seniors score below the national median OR more than half of the graduating seniors score before the national first quartile.

Assessment Measure Used

Major Field Test by ETS

Frequency of Assessment

Annually to students in MATH 499

Data Collected for this Timeframe (Results)

5 students took the MFT in April 2023; 2 of 4 graduating seniors scored above the median! 1 was at the 46th percentile

Score (Met=3, Partially Met=2, Not Met=1)

2

Comments/Narrative

Faculty are in the process of developing an in-house test to replace the MFT. A question bank will be complete in October, and a draft of the test will be finalized in November. This test will allow students some flexibility to select problems covered in the Math elective courses they have completed. The pilot offering of the test will be in MATH 499, Spring 2024.

Resources Needed to Meet/Sustain Results

Explanation of How Resources Will Be Used

Outcome 2

Outcomes are specific, **measurable** statements that reflect the broader goals.

Academic Programs are required to develop **Student Learning Outcomes**, which describe knowledge, skills, and values that students are expected to gain as a result of their educational experiences.

Academic Programs may also develop **Operational Outcomes**, which describe the level of performance of an operational aspect of a program or office (ex. graduation rates, retention, employment data).

Most goals have at least two outcomes measured.

What type of Outcome would you like to add?

Student Learning Outcome

Enter Outcome

Performance of graduating seniors taking Praxis II exam.

Timeframe for this Outcome

Academic Year 22-23

Performance Target for "Met"

100% or all but one student passes.

Performance Target for "Partially Met"

none

Performance Target for "Not Met"

More than one graduating senior fails.

Assessment Measure Used

PRAXIS 2 Test

Frequency of Assessment

Annually to graduating seniors in the Mathematics Teacher Certification Program

Data Collected for this Timeframe (Results)

Two students took and passed the PRAXIS 2 exam this year.

Score (Met=3, Partially Met=2, Not Met=1)**Comments/Narrative**

Our students tend to pass the PRAXIS 2 test on first attempt.

Resources Needed to Meet/Sustain Results**Explanation of How Resources Will Be Used**

Goal Summary

Goal Summary/Comments

Mathematics faculty have decided that the MFT is not providing valuable information for program assessment. An in-house test is being developed. It will be piloted in Spring 2024..

Changes Made/Proposed Related to Goal

After the in-house test is developed, a baseline for student performance will be established and then levels for Goal achievement will be set.

Upload Rubrics/Other Files

Goal 2

Program Goals are broad and overarching statements about the skills, knowledge, and dispositions students are expected to gain by the end of their course of study (big picture). They support the Institution's Mission/Goals.

Program Goal

Students in the Mathematics Secondary Certification program will demonstrate their preparation to teach secondary school level mathematics.

Pillar of Success Supported
High-Demand, Market-Driven Programs

Outcomes

Outcome 1

Outcomes are specific, **measurable** statements that reflect the broader goals.

Academic Programs are required to develop **Student Learning Outcomes**, which describe knowledge, skills, and values that students are expected to gain as a result of their educational experiences.

Academic Programs may also develop **Operational Outcomes**, which describe the level of performance of an operational aspect of a program or office (ex. graduation rates, retention, employment data).

Most goals have at least two outcomes measured.

Students reach Secondary Education Benchmarks set by the College of Teacher Education

Timeframe for this Outcome

Academic Year 2022-2023

Performance Target for "Met"

All students reach Secondary Education Benchmarks set by College of Teacher Education

Performance Target for "Partially Met"

All but one student reaches Secondary Education Benchmarks set by College of Teacher Education

Performance Target for "Not Met"

More than 2 students do not reach Secondary Education Benchmarks set by College of Teacher Education

Assessment Measure Used

PPAT from ETS

Frequency of Assessment

annually

Data Collected for this Timeframe (Results)

No data for this academic year.

Score (Met=3, Partially Met=2, Not Met=1)

Comments/Narrative

Our students regularly meet the requirements and benchmarks set in place by the College of Teacher Education.

Resources Needed to Meet/Sustain Results

Explanation of How Resources Will Be Used

Goal Summary

Goal Summary/Comments

The level of mathematics on the Praxis II exam is well within the reach of a mathematics major and so

acceptable levels of performance are expected.

Changes Made/Proposed Related to Goal

Faculty will discuss adding an outcome that will assess the level of pedagogical preparation our students reach as the result of courses in our mathematics curriculum specifically designed for mathematics certification majors.

Upload Rubrics/Other Files

Goal 3

Program Goals are broad and overarching statements about the skills, knowledge, and dispositions students are expected to gain by the end of their course of study (big picture). They support the Institution's Mission/Goals.

Program Goal

Students will communicate mathematical ideas effectively.

Pillar of Success Supported

Robust Student Experience

Outcomes

Outcome 1

Outcomes are specific, **measurable** statements that reflect the broader goals.

Academic Programs are required to develop **Student Learning Outcomes**, which describe knowledge, skills, and values that students are expected to gain as a result of their educational experiences.

Academic Programs may also develop **Operational Outcomes**, which describe the level of performance of an operational aspect of a program or office (ex. graduation rates, retention, employment data).

Most goals have at least two outcomes measured.

What type of Outcome would you like to add?

Student Learning Outcome

Enter Outcome

Students display the ability to research and understand an extension of or a new mathematical topic.

Timeframe for this Outcome

Academic year 2022-2023

Performance Target for "Met"

At least 75% of students score an average of at least a 2.0 (Proficient) on the two items "Extends presenter's mathematical knowledge" and "Displayed an understanding of the mathematics" on the Presentation Rubric.

Performance Target for "Partially Met"

At least half the students score an average of 2.0 (Proficient) on the two items "Extends presenter's mathematical knowledge" and "Displayed an understanding of the mathematics" on the Presentation

Rubric.

Performance Target for "Not Met"

Fewer than half the students score an average of (Proficient) on the two items "Extends presenter's mathematical knowledge" and "Displayed an understanding of the mathematics" on the Presentation Rubric.

Assessment Measure Used

Faculty ratings of student capstone presentation projects.

Frequency of Assessment

Every year to students in MATH 499

Data Collected for this Timeframe (Results)

All 5 students scored an average of at least 2.0 on these items.

Score (Met=3, Partially Met=2, Not Met=1)

3

Comments/Narrative

The Presentation Rubric will be re-evaluated before use in Spring 2024

Completions.(Mathematics Degrees awarded.)

Timeframe for this Outcome

2022-2023

Performance Target for "Met"

Using a five-year rolling average, the number of degrees awarded (a) for Baccalaureate programs is greater than or equal to 8, (b) for Master's/First Professional is greater than or equal to 3.

Performance Target for "Partially Met"

none

Performance Target for "Not Met"

Using a five-year rolling average, the number of degrees awarded (a) for Baccalaureate programs is less than 8 (b) for Master's/First Professional is less than 3.

Assessment Measure Used

Enrollment and Graduation data extracted from Banner

Frequency of Assessment

Annually

Data Collected for this Timeframe (Results)

1 student graduated; rolling-average 5.0

Score (Met=3, Partially Met=2, Not Met=1)

1

Comments/Narrative

Since we are a small university, we cannot expect a large number of mathematics majors. Also, we think that we tend to lose 'credit' for completions as some of our Dual-degree Engineering students do not apply for their degree from Lander University when they graduate from Clemson. We are attempting to retrieve information about our Dual-degree Engineering students over the last 5 years to see if this is true.

Resources Needed to Meet/Sustain Results

Major Enrollment

Timeframe for this Outcome

2022-2023

Performance Target for "Met"

Using a five-year rolling average, the number of students enrolled in the major (a) for Baccalaureate programs is greater than or equal to 12.5, (b) for Master's/First Professional is greater than or equal to 6.

Performance Target for "Partially Met"

none

Performance Target for "Not Met"

Using a five-year rolling average, the number of students enrolled in the major (a) for Baccalaureate programs is greater than or equal to 12.5, (b) for Master's/First Professional is less than 6.

Assessment Measure Used

Enrollment and Graduation data extracted from Banner

Frequency of Assessment

Annually

Data Collected for this Timeframe (Results)

Headcount 2022: 57
Rolling average: 49.4

Score (Met=3, Partially Met=2, Not Met=1)

3

Comments/Narrative

Enrollments in the mathematics major are high because of the number of students who enter Lander initially declaring a mathematics major but who then discover that they are either unprepared or not interested in pursuing college-level mathematics. A better measure of headcount in the mathematics major is the enrollment in MATH 231, third semester calculus, currently at 15.
