

General Education Rubric Data Collection: 2018-19

General Education assessment data is being collected in the aggregate (without any section or faculty identifiers). The Survey is divided into four sections:

1. In the first section, you are being asked to identify the course for which you are providing data, the term in which the course was taught, the mode of delivery in which the course was taught and your name (the General Education Assessment Coordinator and NOT the instructor of the course).
2. In the middle sections, you are being asked to provide the assessment data for the course you identify in the first section.
3. In the next to last section, you are being asked to upload the General Education Assessment Form that accompanies the data you will enter.
4. In the last section, you are being asked to provide any additional information, in narrative form, that might be useful when it comes time to analyze the data.

Select the course for which you wish to report data. *
