

Adjunct Faculty, Exercise Science and Human Performance

The College of Nursing, Human Performance and Health Sciences invites applications for adjunct faculty (part-time) to teach undergraduate courses in the Department of Exercise Science and Human Performance.

The department is seeking qualified instructors to teach activity-based and foundational courses that promote lifelong physical activity and wellness. Areas of need may include one or more of the following:

- Swimming
- Tennis
- Badminton
- Golf
- Racquetball
- Soccer
- Volleyball
- Basketball
- Ultimate Frisbee
- Weight Training
- Cardio Yoga
- Walk/Jog Aerobics
- Dance Aerobics
- Wellness for Life Activity

Additional opportunities may be available to teach introductory Exercise Science or Human Performance courses based on departmental needs and applicant qualifications.

Courses are taught primarily in person on the Lander campus, with limited opportunities for online instruction.

Minimum Qualifications: Master's degree in Exercise Science, Kinesiology, Physical Education, Health Promotion, or a closely related field. Relevant professional certifications and/or demonstrated expertise in one or more activity areas are desirable. University teaching experience is preferred.

Please submit a letter of application, curriculum vitae or résumé, and unofficial transcripts electronically to Chelsey Driver at cdriver@lander.edu or by mail to:

Chelsey Driver
College of Nursing, Human Performance and Health Sciences
Lander University
CPO Box 6026
320 Stanley Avenue
Greenwood, SC 29649

Official transcripts and a satisfactory background check will be required upon hire.
