

# GRADUATE COURSES OF STUDY

## HEALTHCARE MANAGEMENT

---

### **HCMT 610.HEALTHCARE MANAGEMENT OPERATIONS**

This course focuses on operations management, a critical skill area important for healthcare leadership. The content of this course examines the complex interdisciplinary processes, labor and asset productivity, and operational performance involving quantitative and qualitative skills for healthcare managers. Covering a range of topics from quality management to data analyses, HCMT 610 explains the important concepts and skills necessary to lead a modern healthcare organization. *Three credit hours.*

### **HCMT 620.HEALTHCARE ECONOMICS**

This course focuses on healthcare organizations' economic and financial decisions in the changing healthcare landscape. The course provides a complete understanding of health economics by applying fundamental microeconomic concepts to the analysis of the healthcare market and the study of the organization and delivery of medical care services. The course will address three major tasks: descriptive, explanatory, and evaluative economics to explain relationship variables. *Three credit hours.*
