

LANDER UNIVERSITY ASSISTANCE ANIMAL POLICY AND AGREEMENT

Lander University recognizes the importance of “Service Animals” as defined by the Americans with Disabilities Act Amendments Act (ADAAA) and the broader category of “Assistance Animals” under the Fair Housing Act that provide physical and/or emotional support to individuals with disabilities. Lander University is committed to allowing individuals with disabilities the use of a Service Animal on campus to facilitate their full-participation and equal access to the University’s programs and activities. Lander University is also committed to allowing Assistance Animals necessary to provide individuals with disabilities an equal opportunity to use and enjoy University housing. This Policy explains the specific requirements applicable to an individual’s use of an Assistance Animal in University housing. Lander University reserves the right to amend this Policy as circumstances require. This policy applies solely to “Assistance Animals” which may be necessary in University housing. It does not apply to “service animals” as defined by the ADAAA.

Although it is the policy of Lander University that individuals are generally prohibited from having animals of any type in University housing, Lander University will consider a request by an individual with a disability for reasonable accommodation from this prohibition to allow an Assistance Animal that is necessary because of a disability and reasonable. However, no Assistance Animal may be kept in University housing at any time prior to the individual receiving approval as a reasonable accommodation pursuant to this Policy.

I. Definitions

A. Assistance Animal

“Assistance Animals” are a category of animals that may work, provide assistance, or perform physical tasks, for an individual with a disability and/or provide necessary emotional support to an individual with a mental or psychiatric disability that alleviates one or more identified symptoms of an individual’s disability, but which are not considered Service Animals under the ADAAA and Lander University’s Service Animal Policy. Assistance Animals provide the necessary support to individuals with disabilities without any formal training or certification. Dogs are commonly used as assistance animals, but any animal may serve a person with a disability as an Assistance Animal.¹

¹ It is important to note that animals that may be needed because of a disability may be identified by various names. For example, an individual may identify the animal as a companion animal, therapy animal, or emotional support animal.

The question in determining if an Assistance Animal will be allowed in University housing is whether or not the Assistance Animal is necessary because of the individual's disability to afford the individual an equal opportunity to use and enjoy University housing and its presence in University housing is reasonable. However, even if the individual with a disability establishes necessity for an Assistance Animal and it is allowed in University housing, an Assistance Animal is not permitted in other areas of the University (e.g. dining facilities, libraries, academic buildings, athletic building and facilities, classrooms, labs, individual centers, etc.).

B. Owner

The "Owner" is the individual who has requested the accommodation and has received approval to bring an Assistance Animal into University Housing.

C. Disability Services Office

The Office of Disability Services collaborates with individuals, faculty, and staff to ensure that individuals with disabilities have equal access to all Lander University programs and activities.

II. Procedures for Requesting Assistance Animals in University Housing

The student should complete the following process to request and receive approval under this policy:

- A. Make an inquiry by submitting the online form
 - a. <https://form.jotform.com/213205670990152>
 - b. Provide evidence that the animal is in good health and has been vaccinated against diseases common to that breed of animal as recommended by the American Veterinary Medical Association. Veterinary records attesting to that fact must be submitted to the Office of Disabilities.
- B. Complete Request for Housing Accommodation form.
- C. Assistance Animal Request for Information form (to be completed by mental health provider) for approval of assistance animal. Documentation will not be accepted from paid services. *will be sent to provider by the Office of Disability Services*
- D. Intake Interview Meeting will be scheduled to review the policy and explain the process and the necessary documentation. Meeting will not be scheduled until all documentation has been returned.
- E. Students will be notified in writing of the decision.
- F. Students that are approved will meet with the Director of Housing and Residence Life or her/his designee prior to the animal taking occupancy in order to review the agreement and expectations.
- G. Review and sign the *Housing and Residence Life Animal Agreement*
- H. Strictly abide by the *Housing and Residence Life Animal Agreement*.

Final approval may take longer if roommates/suitemates are not in agreement with the animal living in the space

III. Criteria for Determining If Presence of the Assistance Animal is Reasonable

- A. University housing is unique in several aspects including the mandatory assignment of roommates for many individuals and the mandate that individuals must share a room or suite in certain residence halls. To ensure that the presence of assistance animals is not an undue administrative burden or fundamental alteration of University housing, Lander University reserves the right to assign an individual with an assistance animal to a single room without a roommate.

- B. However, for all requests for assistance animals, Disability Services shall nonetheless consult with Residence Life in deciding on a case-by-case basis of whether the presence of an assistance animal is reasonable. A request for an assistance animal may be denied as unreasonable if the presence of the animal: (1) imposes an undue financial and/or administrative burden; (2) fundamentally alters University housing policies and/or (3) poses a direct threat to the health and safety of others or would cause substantial property damage to the property of others, including University property.

- C. Lander University may consider the following factors, among others, as evidence in determining whether the presence of the animal is reasonable or in the making of housing assignments for individuals with Assistance Animals:
 - 1. The size of the animal is too large for available assigned housing space;
 - 2. The animal's presence would force another individual from individual housing (e.g. serious allergies);
 - 3. The animal's presence otherwise violates individuals' right to peace and quiet enjoyment;
 - 4. The animal is not housebroken or is unable to live with others in a reasonable manner;
 - 5. The animal's vaccinations are not up-to-date; the animal is not one (1) year of age
 - 6. The animal poses or has posed in the past a direct threat to the individual or others such as aggressive behavior towards or injuring the individual or others; or
 - 7. The animal causes or has caused excessive damage to housing beyond reasonable wear and tear.

Lander University will not limit room assignments for individuals with Assistance Animals to any particular building or buildings because the individual needs an Assistance Animal because of a disability.

IV. Access to University Facilities by Assistance Animals

A. Assistance Animals

An Assistance Animal must be contained within the privately assigned individual living accommodations except to the extent the individual is taking the animal out for natural relief. When an Assistance Animal is outside the private individual living accommodations, it must be in an

animal carrier or controlled by a leash or harness. Assistance Animals are not allowed in any University facilities (including Athletic facilities indoor and outdoor) other than University residence halls (e.g. dormitories, suites, apartments, etc.) to which the individual is assigned.

B. Dominion and Control

Notwithstanding the restrictions set forth herein, the Assistance Animal must be properly housed and restrained or otherwise under the dominion and control of the Owner at all times. No Owner shall permit the animal to go loose or run at large. If an animal is found running at large, the animal is subject to capture and confinement and immediate removal from University housing.

V. Individual's Responsibilities for Assistance Animal

If the University grants an individual's request to live with an Assistance Animal, the individual is solely responsible for the custody and care of the Assistance Animal and must meet the following requirements:

A. General Responsibilities

1. The Owner must abide by current city, county, and state ordinances, laws, and/or regulations pertaining to licensing, vaccination, and other requirements for animals. It is the individual's responsibility to know and understand these ordinances, laws, and regulations. The University has the right to require documentation of compliance with such ordinances, laws, and/or regulations, which may include a vaccination certificate. The University reserves the right to request documentation showing that the animal has been licensed.
2. The Owner is required to clean up after and properly dispose of the animal's waste in a safe and sanitary manner.
3. The Owner is required to ensure the animal is well cared for at all times. Any evidence of mistreatment or abuse may result in immediate removal of the Assistance Animal and/or discipline for the individual.
4. Lander University will not ask for or require an individual with a disability to pay a fee or surcharge for an approved Assistance Animal.
5. An individual with a disability may be charged for any damage caused by his or her Assistance Animal beyond reasonable wear and tear to the same extent that it charges other individuals for damages beyond reasonable wear and tear. The Owner's living accommodations may also be inspected for fleas, ticks or other pests if necessary as part of the University's standard or routine inspections. If fleas, ticks or other pests are detected through inspection, the residence will be treated using approved fumigation.

methods by a university-approved pest control service. The Owner will be billed for the expense of any pest treatment above and beyond standard pest management in the residence halls. The university shall have the right to bill the individual 's account for unmet obligations under this provision.

6. The Owner must fully cooperate with University personnel with regard to meeting the terms of this Policy and developing procedures for care of the animal (e.g., cleaning the animal, feeding/watering the animal, designating an outdoor relief area, disposing of feces, etc.).
7. Assistance Animals may not be left overnight in University Housing to be cared for by any individual other than the Owner. If the Owner is to be absent from his/her residence hall overnight or longer, the animal must accompany the Owner. The Owner is responsible for ensuring that the Assistance Animal is contained, as appropriate, when the Owner is not present during the day while attending classes or other activities
8. The Owner agrees to abide by all equally applicable residential policies that are unrelated to the individual's disability such as assuring that the animal does not unduly interfere with the routine activities of the residence or cause difficulties for individuals who reside there.
9. The animal is allowed in university housing only as long as it is necessary because of the Owner's disability. The Owner must notify the Disability Services Office in writing if the Assistance Animal is no longer needed or is no longer in residence. To replace an Assistance Animal, the new animal must be necessary because of the Owner's disability and the Owner must follow the procedures in this when requesting a different animal.
10. Lander University personnel shall ***not*** be required to provide care or food for any Assistance Animal including, but not limited to, removing the animal during emergency evacuation for events such as a fire alarm. Emergency personnel will determine whether to remove the animal and may not be held responsible for the care, damage to, or loss of the animal.
11. The individual must provide written consent for Disability Services to disclose information regarding the request for and presence of the Assistance Animal to those individuals who may be impacted by the presence of the animal including, but not limited to, Residence

Life personnel and potential and/or actual roommate(s)/neighbor(s). Such information shall be limited to information related to the animal and shall not include information related to the individual's disability.

VI. Removal of Assistance Animal

The University may require the individual to remove the animal from University housing if:

- 1) the animal poses a direct threat to the health or safety of others or causes substantial property damage to the property of others;
- 2) the animal's presence results in a fundamental alteration of a University program;
- 3) the Owner does not comply with the Owner's Responsibilities set forth above; or
- 4) the animal or its presence creates an unmanageable disturbance or interference with the university community.

The University will base such determinations upon the consideration of the behavior of the particular animal at issue, and not on speculation or fear about the harm or damages an animal may cause. Any removal of the animal will be done in consultation with the Director of Disability Services and may be appealed to Wellness Center Committee. The Owner will be afforded all rights of due process and appeal as outlined in that process.

Should the Assistance Animal be removed from the premises for any reason, the Owner is expected to fulfill his/her housing obligations for the remainder of the housing contract.
