Bloodborne Pathogen Committee (2020-2021)

Appointed By: President

Reports To President

Membership

The Bloodborne Pathogen Committee shall consist of the university safety officer, who serves as chair; the director of student health services; the director of human resources; and the supervisor, or the supervisor's designee, from each area in which employees may have an occupational risk of exposure to bloodborne pathogens.

Function

The committee reviews and updates the Lander University Bloodborne Pathogen Exposure Control Plan on an annual basis, examines questions arising from established practices and procedures, and serves as a review board for issues relating to the bloodborne pathogen exposure control plan.

Procedures

The Committee meets periodically at the call of its Chair to perform its function as stated above.

The Committee reports to the President.
