- BS in Interdisciplinary Studies: Health Promotion and Wellness: Healthcare Management
- BS in Interdisciplinary Studies: Health Promotion and Wellness: Human Services
- BS in Interdisciplinary Studies: Health Promotion and Wellness: Policy
- BS in Interdisciplinary Studies: International Environment and Sustainability
- BS in Interdisciplinary Studies: Management, Public Relations
- BS in Interdisciplinary Studies: Studies in Early Childhood Education and Psychology
- BS in Interdisciplinary Studies: Studies in Early Childhood with Special Needs
- BS in Interdisciplinary Studies: Studies in Special Education Facility or Education Organization Management
- BS in Interdisciplinary Studies: Teaching and Learning for Diverse Elementary Students (Reading/Media)

The Interdisciplinary Studies (IDS) program provides students with an enhanced education through the study of two disciplines in a planned and purposeful approach. The program is designed to accommodate students who are interested in fields of study that are not offered as specific major programs at Lander University.

Interdisciplinary Studies (IDS) students may select an existing IDS module that meets their needs or interests, or they may work with the coordinator of the IDS program and the chairs of two disciplines to develop a new module tailored to their individual interests or career needs.

PROGRAM OBJECTIVES

The IDS program will

1. Provide an interdisciplinary academic experience for students with career interests that are not satisfied by current discipline-based programs at Lander.
2. Provide an appropriate academic program for adults in the community for whom a major in one discipline is too limiting.
3. Offer students opportunities to explore emerging fields through innovative program design using existing course offerings.

PROGRAM LEARNING OBJECTIVES

Students completing an IDS program will

1. gain college level understanding of the fundamentals of the two disciplines in their IDS module;
2. analyze and critically evaluate information in those two disciplines;
3. demonstrate the ability to integrate the two disciplines into a comprehensive body of knowledge; and
4. demonstrate the ability to communicate understanding of the inter-disciplinary links to others, both orally and in writing, or in other media as appropriate to their module.

APPLYING TO THE IDS PROGRAM

To be admitted to the IDS program, a student must

1. Have a freshman or sophomore class standing (i.e., less than 60 semester credit hours earned)
2. Have a GPA of 2.5 or higher on at least 12 semester credit hours earned at Lander.

New and returning Students interested in the IDS program are encouraged to contact the IDS Program Coordinator upon acceptance into Lander University. This will provide a suitable amount of time to develop and obtain approval for a new module in the IDS Program, if necessary. It is expected that students will have a reasonably clear idea of what they hope to accomplish through the IDS program at Lander University, for example, a particular career path or exploring a newly developed or developing field of study.

For Students proposing a new module, should allow time for development and approval by the Department Chairs of the two disciplines that will contribute to the module. Acceptance into the IDS program is contingent on the approval of the proposed module by all faculty bodies. Students may select from modules already approved.

PROGRAM REQUIREMENTS

An IDS program consists of general education courses, two IDS courses, courses in the two disciplines of the module, and additional elective hours. The program may result in either a Bachelor of Arts degree or a Bachelor of Science degree depending on the design of the module.

All Lander University general education requirements must be met in completing an IDS program. Specific general education courses may be required in some categories in order to complete or complement the particular module selected or developed. These module-specific courses will be indicated on the approved module program requirements pages.

The two courses required of all IDS students are IDS 101 and IDS 499. The first provides an introduction to interdisciplinary studies and the second is the capstone course in the major.

Courses in an IDS module will include a minimum of 30 semester hours at the 300-level or higher in the two represented disciplines, 18 hours in one and 12 hours in the other. Additional courses that are either foundational for the module or which are prerequisites for the upper-level courses may also be required.

Students in the IDS program must maintain an average GPA of 2.8 or higher on course work completed for the two modules. At most, two courses required in the two modules may be repeated, at most once each.

PROGRAM REQUIREMENTS FOR AN IDS PROGRAM WITH A MODULE IN EDUCATION

Students selecting an IDS module with an Education field listed as MAJOR PROGRAM #1 or MAJOR PROGRAM #2 must meet the following program requirements:

1. An ACT composite score of 22, a combined SAT score of 1600, or PRAXIS scores of 151 in Reading, 157 in Writing, and 145 in Math, a score of 1100 on the redesigned SAT exam administered by the College Board beginning March 5, 2016.
2. A current Institutional GPA of at least a 2.75
3. “At Target” scores on the Department of Teacher Education’s Professional Dispositions requirements

To remain in an IDS Program in with a module in Education, students must earn a “C” or better in all ECED, EDUC, or SPED courses and maintain “At Target” on all Professional Dispositions. Failure to meet these requirements may result in dismissal from Education Major Program #1 or Education Major Program #2.

All IDS majors with an EDUCATION MAJOR PROGRAM an IDS Education Major Program #1 or IDS Education Major Program #2 are required to complete internships. The internships will be designed specifically for the program in order to prepare the student for employment following graduation. Failure to complete the assigned internship or issues with Professional Dispositions during the internship may result in dismissal from Education Major Program #1 or Education Major Program #2.

APPROVED PROGRAMS (MODULES) IN INTERDISCIPLINARY STUDIES

BS in Interdisciplinary Studies: Allied Health Studies
BS in Interdisciplinary Studies: Educational Psychology for Special Populations
BS in Interdisciplinary Studies: Environmental Health
BS in Interdisciplinary Studies: Equine-Assisted Activities and Therapies
BS in Interdisciplinary Studies: Financial Services and Public Relations
BS in Interdisciplinary Studies: Graphic Design and Marketing
BS in Interdisciplinary Studies: Health Promotion and Wellness: Behavioral Health
BS in Interdisciplinary Studies: Health Promotion and Wellness: Healthcare Management
BS in Interdisciplinary Studies: Health Promotion and Wellness: Human Services
BS in Interdisciplinary Studies: Health Promotion and Wellness: Policy
BS in Interdisciplinary Studies: International Environment and Sustainability
BS in Interdisciplinary Studies: Management, Public Relations
BS in Interdisciplinary Studies: Studies in Early Childhood Education and Psychology
BS in Interdisciplinary Studies: Studies in Early Childhood with Special Needs
BS in Interdisciplinary Studies: Studies in Special Education Facility or Education Organization Management
BS in Interdisciplinary Studies: Teaching and Learning for Diverse Elementary Students (Reading/Media)

(See IDS Program Coordinator for information on IDS modules pending approval.)

PROPOSING A NEW IDS MODULE

Students or faculty members wishing to propose a new IDS module may do so in consultation with the IDS Program Coordinator and the Department Chairs of the two disciplines in the proposed module. A program proposal form bearing the signatures of the department chairs will be completed and returned to the IDS Program Coordinator. The module will then be submitted to the appropriate faculty bodies on campus for approval. Modifications to a proposed module may occur throughout the approval process. Students are not to consider their program of study as officially determined until the module has successfully passed all levels of approval.

The IDS Program Coordinator will serve as the initial academic advisor for all incoming IDS students, and will inform students of the official approval of any newly proposed modules.

Coursework must include at least 30 hours earned in 300- or above level courses, of which 12 hours must be in the major.

PROGRAM REQUIREMENTS FOR AN IDS PROGRAM IN EDUCATION

Students selecting an IDS module with an Education field listed as MAJOR PROGRAM #1 or MAJOR PROGRAM #2 must meet the following program requirements:

1. An ACT composite score of 22, a combined SAT score of 1600, or PRAXIS scores of 151 in Reading, 157 in Writing, and 145 in Math.
2. A current Institutional GPA of at least a 2.75
3. “At Target” scores on the Department of Teacher Education’s Professional Dispositions requirements

To remain in an IDS Program in Education, students must earn a “C” or better in all ECED, EDUC, or SPED courses and maintain “At Target” on all Professional Dispositions. Failure to meet these requirements may result in dismissal from Education Major Program #1 or Education Major Program #2.

All IDS majors with an IDS Education Major Program #1 or IDS Education Major Program #2 are required to complete internships. The internships will be designed specifically for the program in order to prepare the student for employment following graduation. Failure to complete the assigned internship or issues with Professional Dispositions during the internship may result in dismissal from Education Major Program #1 or Education Major Program #2.
